Please accept this notice in reference to a navigational touring event that has been put together by the Calgary Sports Car Club (CSCC). This event will use roads between Calgary and Drumheller from approximately 10:00 hours to 18:30 hours on Saturday May 12<sup>th</sup>. We expect about 15 cars to enter the event and will use approximately 5 vehicles to observe and keep track of the event.

This is an event with timed sections and transit sections which allow us to set and control the speeds. The regulations and our insurance mandate that average speeds are always at least 10% below the posted speed limit at all times. We (CSCC marshals) will be out monitoring the progress of the competitors at various hidden locations to ensure that everyone is correctly following the rules that have been set up for this event. All public roads will be open to traffic and we are NOT requesting the closure of subject roads for this event.

Note that our route book has been set up to avoid areas of high traffic congestion and speeding by any entrant is not tolerated. Normal flow of traffic will not be interrupted by this event and the roads consist of approx. 80% gravel and 20% paved surfaces. All entrants will be informed of the rules regarding no garbage left behind, noise, etc. prior to the start of this event.

It is the intention of the CSCC to have a successful event in cooperation with the RCMP in the hopes that we may continue this event on an annual basis.
