

2019 Rocky Mountain Rally

Competitor Bulletin 6

Issued May 25, 2019

B6-1–Sunday Start Times

Sunday Start Times are posted on the notice board, and are available at this link
<http://www.csc.ca/RMR/2019/reseed/l3s1s1.html>

B6-2–RallySafe Start Training

At the starts of SS8 and 10 the event will be issuing start times to the RallySafe units as a training and testing process. The normal start lights remain the official start indicators, although teams will see a countdown and 'go' indication on their RallySafe units. The start times will be synched as close as possible.

B6-3–RallySafe Removal and Return

Teams are reminded that the RallySafe units and loaner fitting kits (Outside Antenna, Inside Antenna, yellow power lead, and Ram Mount) should be removed and return to the our event RallySafe volunteers Fawn, Travis, or Buck after the final control.
