rally safe indicated a hazard. No ok sign and no triangle was presented. Car 2 stopped car 15 by driver stepping in front of car 15 with hand out. Ask for tow and proceeded to hook onto car 15 unwillingly. Car 15 was forced to pull Car 2 partially. Car 2 unhooked, we were not indicated to go. Then Car 2 said ok go go go. Please review rally safe from previous stage.
